### Have it your way

Our engineering team can provide DFMA consultation, task-oriented solutions, and prototypes through Low Volume Production (LVP). Analysis is supported by complete engineering documentation. All Intellectual Property is a deliverable. It's up to you, how far you'd like to go.

### Who we are

Core Source Technologies is a core engineering solutions firm specializing in cost-effective, partial and full turnkey domestic outsourcing solutions. Our business focus is on accelerating product development timelines utilizing innovation, experience, and cost-effective solutions.

### Expertise in innovative solutions

Highly experienced in Design for Manufacturing and Assembly (DFMA) to meet today's challenging economic environment.

### Experts in analyzing:

- Material and Labor Reductions
- Component Reduction/Consolidation
- Interconnect Considerations
- Functional Test & Testability
- Circuit Verification
- PCB/PCA Design Implementation
