

Rapid Prototype Services

Accelerating Innovative Solutions

Electrical Support

- PCB Assembly and Inspection
- PCB Rework and Change Management
- Electrical Debug and Testing
- Test Fixture Development and Fabrication
- Reverse Engineering – Electrical
- Component Research and Selection
- Cable design development and fabrication

DFX Services

- BOM Analysis
- Top Level and Sub-assembly, Build Evaluation
- Fabrication and Assembly Drawing Review
- Illustrated Technical DFX Report Generation
- Serviceability Analysis

Mechanical Support

- Prototype Fabrication, Assembly, Test and Rework
- QA Inspection and Reports
- DFX (Manufacturing, Fabrication, Test, and Cost)

General Services

- BOM Generation and Management
- Purchasing, Receiving, and Kitting
- Prototype Mainframe Assembly
- Regulatory Compliance Support
- Assembly Aid Design and Fabrication
- Design Reviews

Certifications

- IPC-A-160
- IPC/WHMA-A-620
- IPC J-STD-001
